

DECO Products Environmental Impact Policy

Deco Products – our leaders and owners - fully supports the principles of promoting good environmental practices and sustainability in our activities, operations and products. Not only will we comply with existing environmental regulations, we will also strive to continually reduce environmental impact.

To support this goal, Deco will:

- Reduce pollution, emissions and waste.
- Minimize the use of raw materials, energy and supplies.
- Include environmental impact as we choose suppliers.
- Assist customers in making environmentally beneficial choices.
- Encourage customers to use returnable packaging when applicable.
- Work with the local community.
- Reduce the impact of transportation.
- Recycle packaging when possible.
- Reclaim lost heat as possible.
- Reduce the use of chemicals.
- Choose sustainably produced packaging and shipping material.

Contributing to a sustainable society is an integral part of how we conduct business at Deco Products.
